## Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### Allowable Subject Matter

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

Applicant(s) claimed invention is directed to a method of preparing a branched copolycarbonate resin the improvement comprising reacting at least one member selected from the group consisting of compounds of the formula 1a and /or 1b

The crux of the invention lies in the discovery that the polycarbonate obtained using the two compounds above result in superior properties and flowability while having lower melt viscosities at both low and elevated shear rates than those previously obtained in the prior art. Such has neither been anticipated by nor made obvious from the prior art. The art of record demonstrates other highly branched polycarbonate produced in the art which do not, however, are not produced from or using the compounds above.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
